Horticulture Basics: Classification, Plant Identification ...

Horticultural therapy is a time-proven practice. The therapeutic benefits of garden environments have been documented since ancient times. In the 19th century, Dr. Benjamin Rush, a signer of the Declaration of Independence and recognized as the "Father of American Psychiatry," was first to document the positive effect working in the garden had on individuals with mental illness.

Bedding, in horticulture, refers to the temporary planting of fast-growing plants into flower beds to create colourful, temporary, seasonal displays, during spring, summer or winter. Plants used for bedding are generally annuals, biennials or tender perennials; succulents are gaining in popularity.. Some bedding plants are also referred to as "patio plants" because they are widely used in pots ...

Bedding (horticulture) - Wikipedia

Find out what you'll learn. At Colorado State, there are two primary methods to explore your passions: majors and concentrations. A major is the degree you will earn at graduation, while a concentration focuses on a specific field of study related to a major.
