Child and Adolescent Psychiatric Clinics of North America ...

Child and adolescent psychiatry or pediatric psychiatry is a branch of psychiatry that focuses on the diagnosis, treatment, and prevention of mental disorders in children, adolescents, and their families. It investigates the biopsychosocial factors that influence the development and course of these psychiatric disorders and treatment responses to various interventions.

Child and adolescent psychiatry - Wikipedia

Inpatient Services (Child & Adolescent) | KGH Kingston ...

Pedophilia (alternatively spelt paedophilia) is a psychiatric disorder in which an adult or older adolescent experiences a primary or exclusive sexual attraction to prepubescent children. Although girls typically begin the process of puberty at age 10 or 11, and boys at age 11 or 12, criteria for pedophilia extend the cut-off point for prepubescence to age 13.

Pedophilia - Wikipedia
