Lumber (American English; used only in North America) or timber (used in the rest of the English-speaking world) is a type of wood that has been processed into beams and planks, a stage in the process of wood production. Lumber is mainly used for structural purposes but has many other uses as well. There are two main types of lumber. It may be supplied either rough-sawn, or surfaced on one or ...

History Of The 307th Bomb Group/Wing. Whoever reads this short history in the future can only imagine the climate of the times, the tense political situations, and the sacrifices in blood, sweat and tears.

History - 307th Bomb Wing Association

The history of our community began with a bang some 80 to 83 million years ago as a most cataclysmic event occurred. Confirmed in 1999 as an impact crater, a four-mile-wide, horseshoe-shaped ridge of hills that lies just southeast of downtown Wetumpka represents the eroded remains of an astroid impact.

Wetumpka Chamber of Commerce - Elmore County History

Because Alabama is one of the most heavily forested states in the nation, the forestry products industry has played a large role in the state's economy. Developing first as the timber industry and to a lesser extent naval stores (turpentine and other pine-resin products), the forest products industry came to include pulp and paper production in the twentieth century.

Forest Products Industry in Alabama | Encyclopedia of Alabama

History of technology - The Industrial Revolution (1750-1900): The term Industrial Revolution, like similar historical concepts, is more convenient than precise. It is convenient because history requires division into periods for purposes of understanding and instruction and because there were sufficient innovations at the turn of the 18th and 19th centuries to justify the choice of this as ...
