Abstracts of the 33rd International Austrian Winter ...

Cytochalasin B, the name of which comes from the Greek cytos (cell) and chalasis (relaxation), is a cell-permeable mycotoxin. It was found that substoichiometric concentrations of cytochalasin B (CB) strongly inhibit network formation by actin filaments. Due to this, it is often used in cytological research.

Cytochalasin B - Wikipedia

Published 2012; Reviewed and Validity Confirmed 2016. Diagnosis, Evaluation and Follow-up of Asymptomatic Microhematuria (AMH) in Adults discusses proper evaluation of such patients, including use of cystoscopy and imaging, and follow up for patients with persistent or recurrent symptoms following a negative work up.

Microhematuria: Asymptomatic - American Urological Association

Ligaments are primarily composed of water, collagen, and various amino acids. Approximately two thirds of total ligament mass can be attributed to water and one third can be attributed to solids. 1 Collagen represents approximately 75% of the dry weight of ligaments, while the remaining 25% contains proteoglycans, elastin, and other proteins and glycoproteins.

Ligament Injury and Healing: An Overview of Current ...

Objectives: To determine the benefits of wet cupping on pain and health-related quality of life (HRQOL) in adult patients with migraine headaches. Methods: We conducted a prospective observational study of wet cupping in 128 patients referred to the cupping clinic at King Abdulaziz University Hospital, Jeddah, Saudi Arabia between January 2013 and December 2015.
