Garden Art Structures: Made using rhubarb leaves, portland cement mixed with fine sand and a layer of chicken wire to help prevent cold weather expansion.. Casting: A sand & concrete mix is made fairly liquid and then brushed on a large leaf with a paint brush. A layer of hardware mesh is added to help keep the form reinforced (mentions that drywall mesh tape can be used too).

Using Shredded Leaves. If you have an abundant source of leaves in the fall, shred them. Your garden will benefit in a big way. Here how to use them: Insulate Tender Plants: A 6-inch blanket of leaves protects tender plants from winter wind and cold. Cover cold-hardy vegetables—such as carrots, kale, leeks and beets—and you'll be able to harvest them all winter.

A leaf is a thin, dorsiventrally flattened organ, usually borne above ground and specialized for photosynthesis. In most leaves, the primary photosynthetic tissue, the palisade mesophyll, is located on the upper side of the blade or lamina of the leaf but in some species, including the mature foliage of Eucalyptus, palisade mesophyll is present on both sides and the leaves are said to be ...

If you are dealing with Early Blight, the tomato leaves will have one or two spots per leaf, approximately  $\frac{1}{4}$  to  $\frac{1}{2}$  inch in diameter. Spots have tan centers with concentric rings in them and yellow halos around the edges. The stems will develop dark, sunken cankers at or above the soil line, and the fruit will start to show dark, sunken spots on the stem end of fruits.

Description. The coca plant resembles a blackthorn bush, and grows to a height of 2 to 3 metres (7 to 10 feet). The branches are straight, and the leaves are thin, opaque, oval, and taper at the extremities. A marked characteristic of the leaf is an areolated portion bounded by two longitudinal curved lines, one line on each side of the midrib, and more conspicuous on the under face of the leaf.

Variegated leaves usually have one color on the inner part of the foliage and a second color along the edge or "margin." These are some of the best examples of plants with bi-colored foliage that you can include a few in your landscaping to spice up your flower beds.. Some plants go above and beyond the call of duty, featuring not two but three different colors on their leaves.
