The climate of Central Asia became dry after the large tectonic collision between the Indian Plate and the Eurasian Plate. This impact threw up the massive chain of mountains known as the Himalayas. The Himalayas, Greater Khingan and Lesser Khingan mountains act like a high wall, blocking the warm and wet climate from penetrating into Central Asia. Many of the mountains of Mongolia were formed ...

The history of Russia has always been a relatively sad and tumultuous one wrought with wars, power struggles, and abrupt changes. These changes have often been forcibly thrust wholesale upon Russia, rather than evolving through gradual, measured methods as in most peoples' histories. From an earlier time, in which we know Russia as 'Kievan Rus,'...
