Natural | Definition of Natural by Merriam-Webster

Nature, in the broadest sense, is the natural, physical, or material world or universe. "Nature" can refer to the phenomena of the physical world, and also to life in general. The study of nature is a large, if not the only, part of science. Although humans are part of nature, human activity is often understood as a separate category from other natural phenomena.

Modern opposition to natural law and natural rights. During the nineteenth century the advocates of limitless state power made a comeback with new rhetoric, (the utilitarians) or the same old rhetoric dressed in new clothes), and in the twentieth century they were politically successful, but militarily unsuccessful.

The relationship of karma to causality is a central motif in all schools of Hindu, Jain and Buddhist thought. The theory of karma as causality holds that (1) executed actions of an individual affects the individual and the life he or she lives, and (2) the intentions of an individual affects the individual and the life he or she lives.
