Computational physics is the study and implementation of numerical analysis to solve problems in physics for which a quantitative theory already exists. Historically, computational physics was the first application of modern computers in science, and is now a subset of computational science.. It is sometimes regarded as a subdiscipline (or offshoot) of theoretical physics, but others consider ...

Highlights Some insights into the mechanism of the shallow tunnelling method (STM) are given. Nine subway stations in Beijing using different approaches of the STM, combined with site monitoring data, are illustrated. Numerical simulation results are shown to compare various approaches of the STM.

Shallow tunnelling method (STM) for subway station ...

Detecting the effect of algorithmic resolution. First, we show that insufficient "algorithmic resolution" of an image analysis algorithm can have a significant impact on the outcome of the ...

Resolution limit of image analysis algorithms | Nature ...

ICFD++ is a software suite that is available for use on all computer systems, from personal to massively parallel computers and network clusters, running various operating systems including Windows, Linux and various flavors of Unix.

ICFD++ Publications - Metacomp Technologies

Countless math books are published each year, however only a tiny percentage of these titles are destined to become the kind of classics that are loved the world over by students and mathematicians. Within this page, you'll find an extensive list of math books that have sincerely earned the reputation that precedes them. For many of the most important branches of mathematics, we've ...

In numerical analysis, given a square grid in one or two dimensions, the five-point stencil of a point in the grid is a stencil made up of the point itself together with its four "neighbors". It is used to write finite difference approximations to derivatives at grid points. It is an example for numerical differentiation

Explanatory note These update pages are largely prompted by the major advance for the study of portolan charts represented by the publication in 2007 of Ramon J. Pujades i Bataller, Les cartes portolanes: la representació medieval d'una mar solcada [With an English version of the text entitled, 'Portolan charts: the medieval representation of a ploughed sea', pp.401-526].

Portolan charts from the late thirteenth century to 1500 ...

1958 Topps Baseball Card Checklist. The Topps baseball card set was released in 1958. The set consisted of 497 baseball cards and each card from the 1958 Topps baseball card set is listed below.

1958 Topps Baseball Card Checklist

In almost every gun forum I've participated in, practically every question or discussion regarding firearm cleaning and lubrication products quickly descends to the same inevitable result: a stream

of “sounding off” about what each shooter uses personally, an explanation of why they love it, what else they’ve tried, and a recommendation that everyone else adopt their choice because it ...

What's Really in Gun Cleaners and Lube? - Real Gun Reviews

Candidates may develop their own research project in collaboration with their supervisor or apply for one of our available projects. Applicants who are interested a specific project should first contact the supervisor listed and then proceed to the Entry Requirements and Apply Now pages. If you also ...

There is no universal definition of advanced reproductive age in women, in part because the effects of increasing age occur as a continuum, rather than as a threshold effect. Fertility clearly declines with advancing age, especially after the mid-30s, and women who conceive are at greater risk of ...

Summary. The objective of the present review is to provide an overview on the effects of the addition of acidifiers to nursery pig diets. Researchers have proposed that dietary acidifiers decrease pH in the stomach and the lower gastrointestinal tract (GIT) of weanling pigs, and thus, protect the host from pathogenic invasion and proliferation and improve nutrient digestion.

Dietary acidifiers in weanling pig diets: a review

Where a solicitation provides for a tradeoff between the price and non-price factors, even where price is the least important evaluation factor, as here, an agency properly may select a lower-priced, lower-rated proposal if the agency reasonably concludes that the price premium involved in selecting a higher-rated, higher-priced proposal is not justified in light of the acceptable level of ...
