

Problem Solving Strategies Maths

Problem Solving Strategies Maths

Anyone who has taught maths for any length of time will know how difficult it can be to teach pupils to solve maths problems out of context. Present pupils with a familiar setting or a sum that they've tackled before then they're usually fine, but turn it into an unfamiliar problem then it's a different matter. However, in the same ways that we teach strategies for other areas of maths, we can ...

Mathematics Problem Solving Strategies - Gary Hall

Purpose of study: Mathematics is a creative and highly inter-connected discipline that has been developed over centuries, providing the solution to some of history's most intriguing problems. It is essential to everyday life, critical to science, technology and engineering, and necessary for financial literacy and most forms of employment.

Problem Solving and the New Curriculum : nrich.maths.org
