

Sap R 3 Ale Edi Technologies With Cdrom

Sap R 3 Ale Edi

Hi, The philosophical difference between EDI and ALE can be pinned as follows: If we send data to an external partner, we generally speak of EDI, while ALE is a mechanism to reliably replicate data between trusting systems to store a redundant copy of the IDoc data.

ALE vs EDI - SAP Q&A

Hi What is the difference between rfc and idoc, since idoc is to transfer data between two systems while rfc also does the same. regards raghu

difference between RFC and Idoc - SAP Q&A

Hi Arvind, yes process will differ in large organisations. sap is all about mapping Existing Business Process into sap. so how well you understood the process that much you can understand the sap. as for my knowledge there is no standard techniques to understand the business process because there are hundreds of business processes which will change from industry to industry company to company ...

Hotspots are special areas of an output list. If the user clicks once onto a hotspot field, an event is triggered. This article ALV Report - call transaction using Hot spot shows how it can be done.

ALV Report - call transaction using Hot spot - ABAP Tutorials

SAP Connect has been around for quite sometime. I am sure there are plenty of documented procedures on setting it up. I recently had to configure it. I have not done this in a long time, so I figured I would capture the setup as well as point out some things to watch for. SAP Connect can be configured for a number of different message relaying purposes.
