Speaker: Bruce Olberding, New Mexico State University. Title: Local rings as points in topological spaces.. Abstract: The set of local subrings of a field can be endowed with a topology in a natural way. The features of this topology resemble, in a way that can be made precise, the features of the Zariski topology of the space of prime ideals of a ring.

1: The credit hours listed reflect what is needed to complete each CAP component. However, they should not be viewed as a cumulative addition to a student's degree requirements because many CAP courses are designed to satisfy more than one CAP component (e.g., Crossing Boundaries and Advanced Studies) and may also satisfy requirements in the student's major.
