### **Successful Electrical Contracting 2001 Edition**

(6) The sale or installation of any finished products, materials, or articles of merchandise that are not fabricated into and do not become a permanent fixed part of the structure, such as awnings. However, this subsection does not exempt in-ground spas and swimming pools that involve excavation, plumbing, chemicals, or wiring of any appliance without a factory-installed electrical cord and plug.

The second decade of the century was marked by extraordinary expansion, industrialization, and communication. It was a time for exceeding expectations making bigger and better lamps and motors, building more power plants, and interconnecting the nation through an expanded transmission system. Many milestones dramatize the practical working success of electricity during this period, including: the
