The American Southwest has long been one of the most consistently beautiful places in not just America, but the world. This was still considered the frontier not more than a century ago, and the landscapes remain as wild and adventurous as ever. While I've focused all my travels on places outside of my home country, in no way have I forgotten or choose to neglect what America has to offer.

What Are Aquatic Invasive Species? Aquatic invasive species (AIS) are those that impact water bodies and wetlands. Whether they come on the trailers or hulls of recreational boats, or from the water of an angler's bait bucket, several non-native invasive species such as Eurasian watermilfoil and New Zealand mud snails have found their way into Montana's water bodies.
